

Doll Within A Doll Within A Doll

1. Write your name on the label on the big doll.
2. Cut out the dolls and arrange them in order – with the largest doll in front.
3. On the first doll's stomach, write three things that almost everyone knows about you.
On the second doll's stomach, write three things that only a few people know about you.
On the third doll's stomach, write three things that only those closest to you know about you.
On the fourth doll's stomach, write two things that only you know about yourself.
On the fifth doll's back, write about a time when you discovered something about yourself that you didn't know before.

Rather than writing these things out in words, you can write or draw hints that only you will understand.
